 M-F: 8:00 a.m. – 4:30 p.m.

Introducing

HURRIPAK™ *Periodontal Irrigation Tips*

By Beutlich LP, Pharmaceuticals

Due to overwhelming customer requests, HurriPAK™ Periodontal Anesthetic Tips are now available for purchase in boxes containing 20 tips. These unique tips were previously only available as a component of our HurriPAK Periodontal Anesthetic Kits.

- Disposable
- Plastic tips are gentle to soft tissue
- May be used with HurriPAK Periodontal Anesthetic Kits
- Luer lock tips may also be used to apply other medicaments
- Perfect for periodontal and endodontic applications

HurriPAK Periodontal Anesthetic Kits were introduced by Beutlich LP, Pharmaceuticals earlier this year as an alternative to Oraqix® for needle-free periodontal anesthesia. Initially introduced in Wild Cherry flavor, Beutlich quickly rolled out the Kit in Pina Colada flavor, as well as a HurriPAK Refill Kit containing extra irrigation syringes and tips.
