Identify Old and New Plaque

Oral care evaluation products have been shown to improve oral hygiene routines, increase motivation, and promote awareness.* Better plaque control provides a healthier oral environment and reduces potential for tooth decay and periodontal disease.

NEW HurriView II Two-Tone Plaque Indicating Snap-n-Go Swabs highlight old plaque blue and new plaque red, so patients can clearly understand how their brushing and flossing habits can be improved.

- Individually wrapped
- Pre-filled with two-tone disclosing solution
- Old plaque turns blue, new plaque turns red
- For in-office evaluation or dispense for home use
- Great low price!
